SPLENDID GARDEN SPOT MESQUITE COMMUNITY

Vegetable canning has already started in the Mesquite Home Demonstration club, reports Mrs. Ora Montgomery, one of the members. She reported to Miss Helen Dunlap, county home demonstration club agent, that she canned her mustard and spinach greens. She had two rows in her garden of a variety of English peas which she planted last November. The vines were of a better color and a better growth than any other English peas in her garden. They were beginning to bloom and from these two rows Mrs. Montgomery expects to save seed for her club members besides having this vegetable for table use this spring.

Not only does Mrs. Montgomery's English pear look as if they they would be exceptionally productive, but the cabbage is also advanced in growth. Last week it was already beginning to head. She has transplanted tomatoes at frequent intervals and from these plants she hopes to have early ones as well as late ones.

This garden spot which is so well suited to promote the rapid growth of vegetables, was formerly a horse lot. Mrs. Montgomery is well pleased with it and says she has tomatoes and other vegetables when those of her neighbors are gone.

That last year she harvested 25 bushels of tomatoes from four rows across the garden.

Walter Apple and little sister, Virginia Louise, who have been quite ill at their home on North Tennessee street, are improved today.

R. D. Erwin was downtown Monday. He has been at home taking the "rest cure." Looks well and his friends are pleased to see him up and at work.

COL. ART GOEBEL VISITS M'KINNEY FRIENDS AGAIN

Col. Art Goebel, famous aviator, was the guest of his friend, A. Hardy Eubanks, in McKinney, Monday night. Mr. Goebel is quite extensively known in McKinney where he has visited several times. He gained international fame as an aviator in 1927, when he won the famous Dole Flight from Los Angeles, California, to Hawaii. Our readers will remember that Col Goebel who has performed all sorts of airplane stunts for movies and air races received his only major air setback at McKinney about three years ago while on a visit to his good friends, Fletcher B. Pope and wife, A. Hardy Eubanks and wife and other McKinney friends. While leaving McKinney from a field about a mile east of the city his ship was crashed when a wind and rainstrom thrust it into a tree. His Mechanic, Liet. Risser, was killed outright in the crash and Goebel's leg was broken. This terrible accident, however, did not mar Col. Goebel's fine regard for McKmney, which was heightened during a long stay in the City hospital, here, where McKinney citizens showed him every possible care and courtesy.

The famous pilot has since revisited McKinney several times and always enjoys a trip back here.

PROF. WOLFORD'S BUSINESS SCHOOL OPENS MONDAY

On Monday, May 21, Prof. Earl Y. Wolford will open his Summer Commercial School in his regular classrooms in the Boyd High school building, at McKinney. He invites prospective students to see him between now and Monday, or on that date, concerning any of the courses which he offers—Shorthand, Typewriting, Bookkeeping, Business English, Commercial Law, Arithmetic, and Spelling. Young people, who are ambitious to prepare themselves for holding paying positions, should take note of this summer school of Prof. Wolword who has proven himself to be successful in his specialty far above the average teachers. He has been teaching eleven consecutive years in this department of our local high school. He has turned out scores of boys and girls who are making good in the training that they have received under his tutelage. They are to be found in stores, offices, banks and all lines of business in McKinney and other towns of the state.

LIFE SENTENCES ASSESSED AGAINST THREE ABDUCTORS

Following a meager description of her abductors, made by June Hobles, Tucson, Ariz., authorities began a thorough probe of her pitiful underground prison for further clues, hoping to close in on two of the kidnapers.

* * *

Life sentences in San Quentin prison were assessed the trio of abductors of William F. Gettle, Los Angeles, Calif., oil millionaire, a scant twenty-four after Gettle was freed by a police raid from the house where he was held prisoner for five days.

The three were told bluntly that they must plead guilty to a charge of kidnaping for ransom and robbrey or stand trial under the California law that provides the death penalty where a kidnaping victim suffers bodily injury. Grimly, they chose the former.

Gettle suffered bruises when he was seized at his luxurious Arcadia country home last Wednesday to be held for $60,000 ransom.

The kidnapers probably were due to be started to prison Wednesday. They will be eligible for paroie. The cases of Loretta Woody and Joan Burke, the women arrested with them, still are to be decided.

Mr. and Mrs. Clayton H. Harris and three children, George Ray Harris, Charlsey Mae Harris and Bennie Jo Harris, of Borger, Texas, are visiting their relatives at their old home here for a few days. They have been located at Borger for four years where Mr. Harris is spillman for one of the Phillips Oil Co. refineries. Mr. sHrris is a son of Mrs. George Harris is a son of Mrs. George wife is a daughter of Mr. and Mrs. Robert L. Ray and a sister of Leonard Ray, an energetic young life insurance agent of our city.

Dr. Bea Largent is quite ill at his home on West Louisiana street. He has been confined for the past several days.

NEVADA 4-H CLUB GIRL HAS PROLIFIC GARDEN

In visiting the garden of Jeraldine Addy, garden demonstrator of the Nevada 4-H club, Miss Helen Dunlap, county home demonstration club agent, was shown a variety of English peas which are different from those of other club members. The growth of these plants are much more prolific than other English peas and the color is much darker. Jeraldine's mother has grown this particular variety for about six years and she states that she has never had a failure. The peas, she says, are larger and stronger plants than the average English pea and are always a little later. Last year she and Jeraldine together canned 42 number 2 cans from 6 double rows which were each about 30 feet long. Mrs. Addy states that by growing this vegetable in double rows that they help to hold each other up and makes gathering easier.

Jeraldine has eighteen different varieties of vegetables growing in her garden at the present time, with three that are being served each day. She hopes that the cool weather continues as the lettuce is beginning to head but should it turn off warm suddenly she fears it will seed instead.

REV. HARRY HATLER OF KENTUCKY VISITING HERE

Rev. Harry Hatler, pastor of the Baptist church, at Corbin, Whitley county, Kentucky, was in McKinney Friday, visiting relatives and friends. He is a nephew of Mrs. Hugh McClelland. He had been out at Wallis Chapel, ten miles northeast of McKinney where he was born, visiting another aunt, Mrs. Melissa Wallis, and family. He is a son of the late Mr. and Mrs. A. L. (Bud) Hatler of McKinney.

Harry is a graduate of Baylor university and took his theological course and degree from the Southern Baptist Theological Seminary, Louisville, Kentucky. His wife was formerly Miss Grace Parris, daughter of Mr. and Mrs. S. H. Parris, an esteemed old Melissa couple. Rev. Mr. Hatler is meeting with success in his work. He was pastor for four years at Gatliff, Kentucky, before becoming pastor of the Central Baptist church, at Corbin, where he is now located. He came to Texas at this time to attend the Southern Baptist convention, which convenes in Fort Worth next Wednesday.

ARCH ELLIS HARNESS AND SHOE BUSINESS

Arch Ellis, the harness and shoe shop man whose store is located on South Tennessee street, near Allen's Grocery store and market, carries a large assortment of merchandise in his line.

His advertisement in our classified columns reads, "Headquarters for horse collars, check lines, bridles, pads, harness and shoe repairing, also second hand shoes bought and sold. Star Shoe and Harness Shop. Arch Ellis, proprietor."

Mr. Ellis opened his business on the same street on January 19, 1917. He has steadily added new equipment and machinery to his store until now he has one of the best equipped shoe and harness establishments in North Texas, carrying a large line of stock from which his customers may make their selections.

He is now selling horse collars for $5.50 that once brought $10.00. Check lines now at $6.50 that once sold for $12.50, and some check lines as low as $3.50 now.

He states that on June 1, when the new code goes into effect, dealers in his line will be compelled to increase their retail prices fifteen per cent. However, he has laid in a new stock in anticipation of the raise. For instance, he is still selling Neatsfoot oil at $1.00 when the price is $1.25.

He buys lots of old shoes and keeps busy repairing them and is in a position to save money to his customers who need anything in that line.

Arch Ellis is one of the fairest and finest men that these editors have ever had business dealings with. By the judicious and steady use of newspaper advertising, Arch Ellis has become an outstanding success known throughout Collin county. Of course, he believes in backing up his newspaper advertising with accommodating service, good quality and live and let-live prices.

Minor Bounds Jr., student in S. M. U. Dallas, spent the week-end with his parents Dr. and Mrs. Minor Bounds in this city.

CREDIT BANK EXPERT HEARD

OWEN W. SHERRILL OF HOUSTON IS SHERMAN SPEAKER

Soundness and importance of the production credit system being set up over the United States to take care of needs of farmers and stockmen were stressed by Owen W. Sherrill, secretary of the Production Credit corporation, of Houston, who was the principal speaker of the meeting of the Sherman Credit corporation held in that city recently.

The meeting was attended by about forty-five members of the Sherman credit bank, the farm and home demonstration club agents and a group of boys from the Sherman High vocational agriculture classes.

"I can see a great future for the Sherman organization, as well as for the others being properly managed," Mr. Sherrill said. He emphasized the fact that production credit is now available for the first time in the history of the country at a low rate of interest and in quantities as meet the needs of the small borrower as well as the large.

The Sherman association is now in position to furnish money to all farmers and stockmen who can qualify for a loan at a rate of 5.5 per cent for the actual time the money is used. Loans can be approved and cash furnished direct from the Sherman office within a period of from five to eight days.

The Sherman Production Credit association, which is formed to take care of the financial needs of the farmers in Collin, Grayson, Cook and Fannin counties, is being ably managed by a Board of Directors such as R. C. Fortner of Plano, W. M. Gibson of Melissa, and Mack Winn of Celina, who represent the association for the interest of Collin county. Anyone desiring information, may confer with the above directors or with U. A. Saunders of McKinney, E. M. Paulk of Royse City, Jesse Harben of Farmersville or take the matter up directly with the Production Credit association of Sherman.

Ray, as district agent of the Southwestern Life Insurance Co., at McKinney, is attending a three-day school of instruction conducted by the company for the benefit of agents of North Texas. * * *

Born in Missouri.

Landon Lee Elliott was born at Forestell, St. Charles county, Missouri, February 1, 1866, being at the time of his death, 68 years, 3 months and 14 days old. He was a son of Henry and Mary Elliott. When he was only five years old, his mother passed away. When he was about ten years old, his father moved to Texas, settling at Terrell, where the deceased entered public school and lived until eighteen. He then went to Dallas to live with his uncle, the late J. T. Elliott Sr., prominent Texas lumber yard owner. He received a fairly good education.

* * *

Came to McKinney in 1893.

The deceased came to McKinney n 1893 and for about thirty years was manager of the J. T. Elliott Lumber yard of this city. He was active in business, civic and church circles and had been a Mason for many years. He was a deacon in the First Christian church here for many years or as long as his health would permit him to serve. He was a man of retiring disposition—modest almost to a fault, but he desired to do his part in every way as a citizen in civic matters as well as in church and fraternal circles. He was active in Chamber of Commerce work and, in his quiet way, lent his support to those things that he believed would advance the interests of his town and county and that were for the best for the moral and educational good of the people among whom he lived. His uniform courteousness as a business man won him friends who live in every part of the county. His passing will bring sorrow to the hearts of many.

* * *

His Survivors.

Mr. Elliott was married, May 11, 1898, to Miss Ernie Stiff, daughter of the late Capt. Ed R. Stiff and wife, a pioneer McKinney couple and whose grandfather, Capt. Jack McGarrah, was founder and first merchant of Old Buckner, the first county seat of Collin county, established in 1846, three miles west of the present site of McKinney. She and one child, Landon Lee Elliott Jr., survive, as do also two brothers, Dr. J. H. Elliott of McKinney and J. T. Elliott, manager of the Elliott Lumber Co., at Terrell, Texas. A sister, Ruby Wolford, of Los Angeles, California, was killed in an auto wreck in April, last year, while en route to Texas to visit her relatives and former home. He is also survived by his stepmother, Mrs. Judy Elliot of Terrell whom he loved as a dutiful son would his own dear mother.

A mass of beautiful floral offerings and designs covering his casket and grave were mute tokens of the love and esteem for the departed and emblems of the sympathy widely felt for the surviving wife, son and other relatives of the departed.

Woodman Circle Distinction Held By Texas Woman

A woman who spent her girlhood days in Garland and who still claims Texas as her home, has achieved unusual distinction as a national officer of Woodman Circle, one of the largest fraternal benefit insurance societies of the world managed entirely by those of her sex.

She is Mrs. Dora Alexander Talley, who recently was elected national president. The sister of W. E. (Gene) Alexander, district clerk of Tarrant county, Mrs. Talley has many other relatives in this part of the State and is widely known.

Mrs. Talley had served as national secretary since 1911, when she went to live in Omaha.

Mrs. Talley was born in Alabama but moved to Texas with her parents when she was a small child. She was educated in the rural and normal schools of this State and became a teacher. She taught in Garland and other towns continuously until 1911.

Mrs. Talley began her association with the society in 1904, when she became a charter member of a grove at Pleasant Valley organized by her father, the late J. D. Alexander. She organized Garland Grove and in 1909 she was elected delegate to the biennial state convention of the Woodman circle. At the state convention in 1911 she was named delegate to the national convention, which named her supreme clerk. In 1919 she married John R. Talley of Garland.

Her chief source of pride are the society's home for aged members and orphan children at Sherman and the national headquarters building in Omaha. Plans for a third unit of the home, to be called the Dora Alexander Talley building in Mrs. Talley's honor is now underway.

* * *

Daughter J. D. Alexander.

Mrs. Talley is a daughter of J. D. Alexander, deceased, who was well and favorably known by thousands in Collin county. Mr. Alexander and Senator Perkins were life-long friends. Mrs. Lena Shugart, of Garland often comes to McKinney and has done much for the Woodmen circle in this city and county, being a fraternalist of much ability.

CLAIM OF CLYDE BARROW REFUTED BY OFFICIALS

Statements made by the desperado, Clyde Barrow, in a letter to W. R. King of District Attorney Robt. Hurt's office, in Dallas, and mailed in McKinney late Monday, are controverted by evidence in the hands of investigators, according to Sheriff Smoot Schmid of Dallas.

In the letter, allegedly written by Barrow and containing thumb prints supposedly of Barrow, the latter indicated that Raymond Hamilton, his former companion in crime, was a "killer" and had taken part in the slaying of two patrolmen near Grapevine on Easter Sunday and also had shot a guard during a prison break at Huntsville several weeks ago.

According to the Dallas sheriff, prints found on a whisky bottle at the side of the road near Grapevine where the two highway patrolmen were killed, are those of Barrow, and not Hamilton. He also said that as soon as Hamilton was captured a new set of his prints was sent to Fort Worth, where the whisky bottle is held as evidence, and compared with those, and that did not tally.

"One of the patrolmen was shot with a shotgun and with a machine gun rifle,' Schmid said. "The machine rifle is one of Barrow's favorite weapons."

* * *

Was in South Texas.

Schmid also pointed out that the day the patrolmen were killed Hamilton was in South Texas, having kidnaped Mrs. Cam Guinter of Mexia after he robbed the bank at West. Hamilton also reminded interviewers of this, even though it involved admission of the West robbery.

Barrow's letter was typewritten on a Western Union telegraph blank and inclosed in a manila envelope which bore a Mother's Day commemorative stamp reproducing the famous painting of Whistler's mother.

* * *

Ridicules Hamilton.

Barrow ridiculed Hamilton for "playing baby and making a jury cry over him."

Don't forget Commencement exercises will be held Friday night at the Boyd High school auditorium; Dr. T. O. Walton, president of Texas A. & M. college, is the speaker.

COMMENCEMENT

Hundreds of local townspeople are making arrangements to be at the commencement exercises of the McKinney High school Friday night, May 18, when sixty-five fine young men and women of our city and county will receive their diplomas from McKinney High school and when Dr. T. O. Walton, president of Texas A. & M. college, will bring the commencement address. These commencement exercises will be held in Boyd High auditorium, and, of course, a large attendance is expected.

AT BLUE RIDGE

The Blue Ridge High school in Northeast Collin will have their commencement exercises Friday night, May 25, we have been advised. The Blue Ridge High school this year, under the able leadership of Superintendent Roby Fees and Prof. Roy R. James, principal, has accomplished much along all lines. There are about twenty graduates to go out from that the school this week. Blue Ridge, during 1933-34, achieved one of the finest, if not the finest, athletic records ever boasted by a Collin county school. It won seven championships with a limited school body of young men and women.

MORE TOURIST TRAVEL

This is the time of the year when everybody begins to shake off the inertia of winter and economic depression and murmur dreamily to himself about the wide, open spaces and blue hills. And it is also the time of year when road informants begin to wonder why they chose that job in the first place, for, inquiries come thick and fast.

WHERE TO?

Along this line a road informant has the following to say: More travel is being planned this year than since the spring of 1930. The trips are longer, too. Last year and the year before that and the one before that, most persons felt they were too hard up to take a trip and that business worries would preclude any possibility of enjoying it even if they did. Now they're trying to make up for lost time. Tourists are eager to visit natural wonders instead of man-made wonders such as those which occupied them at the world fair last year. This has been officially designated national park year, and no doubt many McKinney folks will hie themselves to Yellowstone and Glacier playgrounds. Yellowstone is already receiving motorists, and some parts of Glacier park are open. Official opening of both parks will be in mid-June. Travel to Mexico is also heavy, especially to Monterrey.

Wesley College Homecoming Banquet May 23

The Wesley College Annual Homecoming banquet will be held in the college dining hall in Greenville Wednesday, May 23, at 6:30 p. m.

All ex-students will be guests of the college for the banquet. All ex-students will please consider this a special invitation. Write Mrs. Zelma Boyd Hardy, Emory, Texas, for reservations. If you do not find time to make reservations, come anyway.

MISS LOUISE McCONNELL CLASS RECITAL

An evening of delightful entertainment was thoroughly enjoyed and appreciated when Miss Louise McConnell presented her class in recital on last Friday evening at the Methodist church in Frisco.

The Glee club, composed of a group of twenty girls from Carrollton High school, accompanied by their director, Mrs. Martin, and Supt. John Gunstream, were present and assisted in the recital.

Miss McConnell presented Mr. Gunstream who in turned introduced Mrs. Martin. Mr. Gunstream is one of Frisco's own boys of whom she is justly proud. He is a graduate of the Frisco High school, holds a degree from S. M. U. and is a student of Oxford university.

Miss McConnell's program was divided in three sections as follows:

I. Comedy.
Glee club.
II. Comedy.
Glee club.
III. Mother's Day selections.
Reading by Miss Irene Elkins of Dallas.
Drill by eight girls.

Those taking part in Miss McConnell's program were: Marcile Gunstream, Willie May Dewsese, Margie Ruth Martin, Bonnie Nell Stapleton, Anna Marie Woods, Aline, Allogene and Mary Jo Carter, Louise Thomas, Mary Katherine McIntyre, Mary June Bell, Vardeman Atcheson, Robbie Mack Douglas, Nancy Della and J. W. Marshall and Miss Irene Elkins of Dallas.

The church was never more beautifully decorated than it was on this occasion. Baskets of roses, sweet peas, snapdragons and petunias formed a beautiful background for this delightful entertainment.

After the recital, Miss McConnell entertained the Glee club and other Carrollton visitors at her home where she served refreshments of ice cream and cake.

MELISSA

Mrs. Ethel Bridgefarmer

Mrs. H. S. Wysong visited her nieces, Mrs. Lee Kennedy and family and Miss Dorothy Leigh in Waxahachie recently and attended the opera "The Pied Piper of Hamlin." Mrs. Kennedy, whose home is in Waxahachie, was before her marriage Miss Evelyn Leigh, the accomplished daughter of Mr. and Mrs. H. T. Leigh. Miss Dorothy Leigh, the youngest daughter, attends Trinity university and lives with her sister.

L. R. Gibson of Dallas is here on a brief visit to his parents, Mr. and Mrs. J. L. Gibson, and sister, Miss Corinne.

Mrs. M. P. Graves of near Howe, who had been taking treatment for several weeks under Dr. W. S. Wysong in McKinney, was brought down for treatment Tuesday and her condition was such that it was thought best for her to stay here with relatives. Thursday afternoon her condition became worse and she was taken to the City hospital in McKinney Friday where she later passed away. Her brothers, who were here are: V. Zue Rogers of Lamesa, J. Woodville Rogers of San Antonio; Claude of Frisco; Hubert of Dallas; and Frank of Austin. Mrs. Graves was the only daughter of Mr. and Mrs. J. H. Rogers. She an dher husband were the parents of three fine cihldren, a daughter and two sons.

A recent wedding of interest to people locally was that of Miss Jessie Henry to Joe Camponovo at Marshall. They were married at the parsonage of the First Baptist church by the pastor, Rev. Harlan J. Mathews. The couple left immediately on a wedding trip to Arkansas. They will make their home in Marshall. Mr. Camponovo is the son of Mrs. H. O. Camponovo of Marshall and of a prominent family there. Miss Jessie Henry is the youngest daughter of P. S. Henry and a granddaughter of Mr. and Mrs. W. F. Scott. She was born and raised here and attended school at the Melissa High school. She had lived all of her life until about a year ago just north of town, where her father and brothers and grandparents live, until she went to Marshall and made her home with a sister, Mrs. Marion and husband. We wish for Mr. Camponovo and his bride a long happy, useful life. The bride has been our close neighbor and played with our children all her life.

C. C. Swindle, late of Dallas but for years one of our home town men, died in the City hospital in McKinney Friday, April 27 at 12:27 a. m. after several weeks serious illness. Mr. Swindle served as rural letter carrier here for thirteen years, moving to Dallas in the summer of 1918 and where he has since made his home. Rev. A. L. Clinkenbeard, pastor of the Christian church, conducted the funeral in his church Saturday afternoon at 2:30. Burial followed in the Melissa cemetery beside the graves of his two sons, Calvin Jr., who died when a small child, and Edgar Lee, who died in Dallas in 1926. He is survived by his wife, Mrs. Mollie Swindle, an only daughter, Mrs. Homer Dobbins and an only granddaughter, Frances Dobbins of Dallas and the following brothers and sisters: D. D. Swindle of Dallas; Isaac Swindle of Spokane, Wash.; John Swindle of Shawnee, Okla.; B. G. Swindle of Wichita Falls; Mrs. R. L. Whitus of Sherman; and Mrs. Ruth Pleas of Nashville, Tenn. The I. O. O. F. lodge of Dallas had charge of the body at the cemetery. The Isaac Crouch funeral directors had charge of the funeral arrangements. Messrs Bob Parris, Doyle Stacy of Allen, Tom Mitchell of McKinney and Elmer Parris, composing a quartet, sang at the church. A large crowd of sorrowing relatives and friends gathered to show their respects.

Mrs. Alma Phillips has been on the sick list.

Mesdames J. L. Lovejoy, H. A. Finch Sr. and C. G. Comegys of McKinney drove up through our little town Saturday afternoon and visited briefly with Mrs. A. H. Bridgefarmer.

Fred Bridgefarmer is seriously ill at his home here. He is the only son of Dr. A. H. Bridgefarmre.

THE PRODUCT AND ITS MARKET.

There is an old saying, that if you have a good product and market it properly the world will beat a path to your door. Undoubtedly Mr. Cabell had this in mind when he opened McKinney's newest business institution, The Collin County Milk Products Company. From all indications, the public is doing that very thing—beating a path to its door. Passing along East Virginia street at most any hour of the day or evening one cannot help but notice the steady stream of customers passing in and out of that place of business.

The Collin County Milk Products Company buys Collin County raw milk and manufactures it into a number of excellent dairy products, among them Cabell's ice cream repertoir. Not only does the company make an excellent product, but they know how to market it successfully, which is proven by their big volume of sales which is seldom customary for a new enterprise to enjoy so quickly.

The Collin County Milk Products Company are pushing up their sales through newspaper advertising. They have some of the most attractive ads we have seen in a long time, especially in their campaign on Cabell's ice cream not only are the ads attractive but there are some real selling points in them. Those selling points, of course, are backed up by the article itself. The Collin County Milk Products Company has been using the columns of The Daily Courier-Gazette and The Weekly Democrat-Gazette in their advertising campaign of Cabell's ice cream in both a liberal and effective way. They provide a badly needed market for farmers to sell their whole or raw milk in.

Texas lost one of her pre-eminently distinguished citizens, statesmen and business men in the death of the late Judge M. H. Gossett, Sunday, May 13, which sad event occurred at the home of his daughter, the wife of Dr. W. M. Anderson, 3503 Crescent, Highland Park, Dallas. A native Texan, born February 3, 1859, in Cherokee county, he was thoroughly imbued with the best traditions of the old South. He practiced law at Kaufman, and served as County Attorney of Henderson County from 1883-85. He was elected to the legislature from Kaufman county in 1891 and was a Jim Hogg leader in legislative halls in much of the constructive legislation that was done under the Great Commoner's administration. He moved to Dallas, January 1, 1906, forming a law partnership with W. J. J. Smith, a former Collin county man and a brother of Judge G. R. Smith, at present, president of the Collin County Bar Association. He served as president of the Sam Houston Life Insurance Company and was actively conducting his extensive farming interests in Kaufman and Henderson counties when he was elected president of the Board of Directors of the Federal Land Bank, at Houston, in 1917. For sixteen years, he conspicuously served the farmers of the entire state in that capacity. He had many friends and admirers in Collin county as he did in almost every other part of the state who appreciated the man and the fine character of public service that he rendered our great state.

Although it has been temporarily crowded out of the picture by overproduction and governmental forced decrease of farm acreage, diversification of farm crops is still being preached and practiced in Collin county. Although our county is far down the list in acres planted and bushels produced in the official state list of wheat producing counties, Collin had the third largest number of wheat producing farmers in the 254 counties of the state. The county also ranks high in number of cotton farms and in the past few years has become a leading onion raising center; also has greatly added to its dairying business, has many truck gardens, a large number of native and improved pecan trees and numerous different kinds of fruit, raised in large quantities. Collin county is no longer a blackland belt "cotton county." It is diversified and standardized and is the greatest agricultural county of the state and possibly of the nation when taken from the standpoint of the wide range of soil crops successfully produced. It is truly an-all-around farming county.

Plano didn't enthuse much when a mass meeting was called to consider a municipally owned lighting plant. Only about 12 citizens outside the city officials attended. No steps were taken, it seems, to push the movement. In some instances the municipally owned plants are a success. In most of them, however, just as much dissatisfaction follow as in any other big business. It depends on who is operating them. We congratulate our Plano friends on their caution. It is easy to bond a city for 40 years and buy machinery. Just as it is easy to bond our lands and build gravel roads that blow and wash away 30 years before the bonds are paid off. A city council or a city commission that is honest and competent can regulate privately owned lighting plants in the interest of the city and the owners. Let's stop building debts for our children to pay, especially when it is not necessary to do so. —McKinney Examiner.

According to the views of some foreign nations, disarmament means burying the hatchet and picking up a rifle.

Corn ranks as the second most important farm crop of Collin county. While it is not rated so high as a cash crop to our farmers, yet its importance is realized more forcibly when drouth or pests cut the crop short, and farmers have to buy it to meet their needs to feed work stock and other live stock, including their poultry and fattening hogs. It is also an important bread crop, second only to wheat in that respect. Corn and its by-products are classed among the most needful and valuable crops known to the human race. It is also very essential and valuable in chemics, according to the American Chemical Society. It furnishes the chemical fraternity with one of the most important of the basic materials used in chemistry—starch. In fact, corn is 50 per cent starch, as there are about thirty pounds of starch to the busnel of corn. In turn, a lot of this starch is converted into dextrose, which is cornstarch sugar. Uses of dextrose are many and varied, but one of the most important is its use as infants' food, because it is identical with the sugar of the body and can be used by the cells without digestive change. Dextrose is also used in carbonated beverages to keep the gas on "fiss" from escaping. Dextrin, another starch product, is used for "stickum" on stamps and envelopes as well as thickening for colors in fabrics. Truly corn is a most important crop to the human family.

County Judge J. Frank Harrington and Mayor Joe E. Largent both say that work proceeding on Highway 75 from McKinney to the Dallas county line is giving needed employment to many laborers. Preference is being given to home county labor. The highway will be widened, rebuilt or newly built over that part of it where the highway is being straightened to shorten distance. This is one of the most heavily traveled highways in Texas. It comes into the state at Denison, where it crosses Red River, and extends southward through the state to the Gulf.

Tom F. Hunter in speaking for his candidacy for the governorship recently in McKinney advocated the abolition of the poll tax, declaring that: "It is discriminatory in favor of the well-to-do against the man of moderate means." He also favored a reduction of automobile license fees to $3.00 and $5.00 and favored an old age pension plan. He also said "Records show that real estate brings us only 16 per cent of our income and yet bears 77 per cent of the ad valorem tax burden, while the other 85 per cent of our income from sources other than real estate bears only 23 per cent of the load. There is, manifestly, a remedy required."

After a quarter of a century of faithful service, Hollis Barron has resigned as Chief of Police, at Waco. Hollis was reared in Collin county where he is appreciated by a host of friends and acquaintances. He made a popular peace officer. His police force almost worshipped him, and the chiefs of the state elected him President of their State Association several times. Hollis is a personal friend of these editors. He retires with nothing but good will for all mankind and deserves a less strenuous life and a rest which we are sure he will enjoy.

Don't think because you have hurdensome duties in your own business affairs that you have no time for your church, your school, your Chamber of Commerce and for cooperative civic movements for the common good. Just remember, that people, who get things done, are the ones who have a lot to do, like yourself. The habitually idle are usually the drones of society. They have no vision beyond their own selfish interests. Don't classify yourself with this group. Also, keep in mind that success is comprised of more than merely making money.

One of McKinney's most appreciated enterptises is the Textile Cotton Mill of which Frank W. Smith is manager. It employs between 400 and 500 people and gives support to 1000 or 1200 people, counting the families of the mill workers. A monthly payroll of between $25,000.00 and $30,000.00 is a factor of no insignificant importance in McKinney's commercial life.

I voted for Norman Thomas because I didn't think that Roosevelt was big enough for the job. We, who have watched Roosevelt from the beginning of his political career, are dumbfounded at the way he has handled his job so far. If the Roosevelt plan fails we are likely to see Fascism of some sort.—Oswald Garrison Villard, Editor, the Nation, New York.

A vast amount of remodelngi, rebuilding, repapering and repainting is needed in our city. We have three big lumber yards and several more merchants handling paint and varnish. Interview some of them. Start something in the home renovating line. It will add comfort and pride to your home city and lend attractiveness to it that will indirectly bring more people and more dollars to your town from which you will surely benefit financially.

H. B. Bickers is the new Collin County Administrator under the Federal Relief and Rehabilitation set-up that succeeded the CWA on April 1. W. B. Mantooth resigned the position to make way for Mr. Bickers. This direct Federal Relief help has been a great boon for the unemployed and the needy of our county as it has been in every other county of the United States. This is one of President Roosevelt's New Deal measures to help stem the depression.

An amendment to the recent Bankhead Cotton Law provides $500,000 for research work to develope new and extend old uses for cotton. There is a possibility of this opening the way for a cotton laboratory in Texas, which John W. Carpenter advocated in an address before the annual membership of the McKinney Chamber of Commerce about three years ago. Texas Congressmen seem to be wideawake in behalf of this laboratory for Texas.

It has been truly said that every business should be advertised. Only those concerns who advertise and let the people know who they are, where they are and what they have ever get anywhere.

Wall Streeter fears the stary corner of our flag will be replaced with the hammer and sickel. But after reading his article, seems he wants to replace it with a hammer and chisel.

Eventhough we are taxed at every turn, times are not so bad at that. Thirty years ago we had to pay $1.50 to see gals dressed as they are now to be seen free in most any man's town.

J. W. McCullough For State Senator

Present Representative and Attorney Aspires for Higher Honors.

J. W. (JOE) McCULLOUGH

In coming before the citizens of the 10th Senatorial District of Texas, composed of Collin, Hunt, Rains and Rockwall counties, asking for the honor of the office of State Senator, I fully realize the responsibility that the duties of the office carries with it.

I was born on a farm in Hunt county, Texas, November 5, 1886, and I have farmed the major portion of my life. Being reared by very poor parents, I had few educational advantages until I reached the age of eighteen years at which time I entered the East Texas Normal college at Commerce, Hunt county, which was under the management of Professor W. L. Mayo. After being in college three years, I began teaching in the rural schools and taught for seven years. I am familiar with the needs of the rural schools and I am especially interested in the education of the youth of our state.

The time may come when there may be too many teachers, too many doctors, or too many lawyers, but the time will never come, when there will be too many educated people, for the safety of any democracy depends upon the intelligence and education of its citizenship.

I have lived in Collin county for the past twelve years, and I was elected by the citizenship of this county to the Lower House of the 43rd Legislature in 1932, and I have had two years experience in Legislative work. I am glad to inform the citizenship of this Senatorial District that I was very active in helping to cut state expenses in the 43rd Legislature that resulted in a savings to the taxpayers of nearly $15,000,000 and I feel that state expenses could have been cut another $10,000,000 without hurting or impairing the efficiency of our state government.

I supported the Moratorium Bill in the recent called session of the Legislature that will save thousands of farms and homes from an unjust foreclosure at the hands of the loan companies and land syndicates during the year of 1934.

I was author of the Loan Shark Bill that, if passed, would have saved the very poorest people of our state near $30,000,000 per year in unjust and unreasonable interest on loans. I am an attorney by profession, but I have never represented a corporation at any time.

I am in hearty accord with our President, Franklin D. Roosevelt, in his entire recovery program in trying to bring social justice to the masses out of the depression that we are now in.

These are days that try men's souls. We are now in the midst of the greatest economic break down that the world has ever known. The farmers, who feed and clothe the country, are broke. Our small business men are going into bankruptcy. Thousands of honest working men are unemployed and hunger walks on skelton feet through fields of plenty and the wolf of want howls unmolested at the door of thousands of homes throughout the length and breadth of our land.

If elected to the State Senate, I promise to carry out my program of economy in state government and will work at all times in the interest of the great mass of our people.

J. W. (JOE) McCULLOUGH.

Why the Sudden Change to Liquid Laxatives?

Doctors have always recognized the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit individual need.

The public, too, is fast returning to the use of liquid laxatives. People have learned that a properly prepared liquid laxative brings a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The wrong cathartic may often do more harm than good.

Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly *safe*. Its laxative action is based on senna —a *natural* laxative. The bowels will not become dependent on this form of help. Dr. Caldwell's Syrup Pepsin is at all druggists. Member N. R. A.

Baccalaureate Speaker

DR. C. S. WEAVER.

DR. C. S. WEAVER BACCALAUREATE SPEAKER SUNDAY

Dr. Clifford S. Weaver, pastor of the First Christian church, brought a forceful message to sixty-five members of the McKinney High school graduating class, at Baccalaureate services held at that church Sunday morning at the 11 o'clock hour. He took for his text that portion of scripture found in the seventh chapter of Matthew, to-wit:

"Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves.

"Ye shall know them by their fruits. Do men gather grapes of thorns, or figs of thistles?

"Even so every good tree bringeth forth good fruit; but a corrupt tree bringeth forth evil fruit.

"A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit.

"Every tree that bringeth not forth good fruit is hewn down, and cast into the fire.

"Wherefore by their fruits ye shall know them."

"In times like these," said Dr. Weaver, "there always appear a lot of people who offer a panacea and cure-all for all the ills of the world." He characterized this class of people as false prophets and urged the Seniors not to follow after this and that false leader.

"I do not claim to be such a prophet, but I do claim to be an ambassador of One having a cure for broken hearts—an humble ambassador of One who has a cure for every human ill."

* * *

In beginning his address to the Seniors, Dr. Weaver declared, "I hope that many of you will have the privilege of higher educational facilities." However, he added, anyone who finishes the McKinney High school today, should they be denied further educational advantages, already have preparation and equipment for the tasks of life.

Commencement Friday Night.

To the strains of Clark's "March," played by Miss Strickland, the graduates made their exit from the auditorium. A busy week has been planned for the Seniors this week, as they prepare for Commencement exercises Friday night, May 18, when they will be given their diplomas and honor students will be announced. The speaker will be Dr. T. O. Walton, president of Texas A. & M. college. The Commencement exercises will be held at Boyd High school.

PLOWING SCREEN MAKES SHRUBS GROW FASTER

"I wish you could see how fast my screen has grown since we plowed it," Mrs. Bart Bryant, yard demonstrator of the Wetsel Home Demonstration club, told Miss Helen Dunlap, county home demonstration club agent. Mrs. Bryant states that she had been working about her plants with a hoe, but that they were growing slowly. But she wanted her plants to grow as fast as possible to help conceal the outbuildings, and as a means of getting an effective screen sooner. Mr. Bryant plowed on two sides of the plants. She is highly pleased with the results.

From her own experience she feels it pays to plow screens and she advises others to try it. In her screen, Mrs. Bryant has nanative youpon, red bud, sumac, poplar, dogwood, lilac, crepe myrtle, bridal wreath, privet and ligustrum. By distributing the evergreen shrubs with the native plants, the screen will be effective in the winter as well as summer.

Mr. and Mrs. Clint Walters, who have been quite ill at their home, 503 West Heard street are reported much better. Mrs. Walters is able to be up and Mr. Walters is also again at his place of business, the Collin County Feed Co., of which store he is associated as proprietor with Uncle Ed Hoke.

BAILEY TO OPEN SENATORIAL RACE AT HENDERSON

Congressman-at-Large Joseph Weldon Bailey Jr. of Dallas, will formally open his campaign for the United States Senate from Texas in a speech at historic Henderson, county seat of Rusk county, in the heart of the East Texas oil fields on Saturday night, May 19. The speech will be made on the courthouse lawn.

Several North Texas delegations are expected to be present to hear this opening address including several Collin admirers.

Many East Texas towns had requested Congressman Bailey's opening speech and Henderson was selected owing to the fact that it is the center of the East Texas oil fields and of a rich agricultural district. There is much interest in the Ickes oil control bill—which would take the control of the Texas oil industry away from the State and put it in the hands of the Federal government—in this section of the State and it is expected that Congressman Bailey will discuss the Ickes oil bill at length. Mr. Bailey is determinedly opposed to this measure. He will also outline his position in regard to the Bankhead bill which so vitally effects cotton farmers.

DEMONSTRATION WOMEN MEET HERE SATURDAY

The Collin County Council of Home Demonstration clubs held an interesting meeting in the Chamber of Commerce auditorium here Saturday, beginning at 2 o'clock. Mrs. J. T. Isom, of Franklin, is president of the council while Miss Gertrude Arnold of Anna is secretary. Eleven clubs were represented.

Some splendid reports from the various committees were given, showing that commendable work had been done in the club since the first of the year. Miss Helen Dunlap, county home demonstration club agent, made her annual report of the work done in 1933. The summer recreational committee at this meeting, asked for a little more time to make definite plans for summer activities.

Discuss Short Course.

A number of announcements were made, especially of the annual short course to be held at C. I. A., in Denton, on Friday, May 18. All farmers, farm club women, boys and girls are urged to attend. Those attending from this county will meet at the Chamber of Commerce here Friday morning at 7 o'clock from which place they will leave in cars provided by the local Chamber of Commerce. All who attend are asked to bring along a basket lunch for the noon picnic which will be served on the college campus.

Miss Dunlap stated that Collin county club ladies who will have exhibits in the cheese show at the short course, must send in their exhibits to the Food Preservation laboratory in the Rural Arts building at C. I. A. not later than 9 o'clock Wednesday, May 16.

Mrs. J. L. Lovejoy was a guest and made an interesting talk in the interest of highway beautification. She offered a cash prize in this respect, and urged the club women to enter. She also offered to give an American Beauty rose bush and an iris to the club woman who makes the best improvement in her yard this year.

Mr. Heath Talks.

Samuel Heath of Sherman, representative of the Farm Production Credit association, at Houston, was the principal speaker of the afternoon. This association has a branch office at Sherman, which includes the following counties—Collin, Fannin, Grayson and Cooke. The Farm Production Credit association represents the Federal Land bank, the Production corporation, the Federal Intermediate Banks and the Banks for Cooperatives, all of Houston.

Mr. Heath's talk was informative. He stated that farmers who borrow from the association must have a definite farm program, in order to have a definite repayment plan. The loans secured from the association are permanent loans, and not emergency loans, as formerly. The association is planning a meeting to be held in this county within the next two weeks. Two representatives from each Home Demonstration club in the county is invited to attend, and bring their husbands.

AUTO DEALER'S PRESENTIMENT WELL GROUNDED

Burglars, who entered the C. J. Smith Garage on East Louisiana street, between 2:30 and 3:00 o'clock Sunday morning were successful in gaining only $5.60, the amount in the small cash register of this big McKinney automobile concern.

The culprits knocked the top off this register and then tore the top of the big electric cash register from which they secured a bunch of keys and started on a burglarizing spree. They were frightened off by the appearance of Mr. Smith ,owner of the garage, who had come back to his place of business. "I could not sleep well and had a presentiment that something was wrong at the garage," he said today. When the perpetrators of the burglary, presumably three men jumped out of a back window and fled at the unexpected appearance of Mr. Smith, they came into contact with a local night watchman who fired at them five times when they failed to halt. One of the trio, a McKinney youth, was captured and is in jail here.

DELEGATE TO THE GENERAL CONFERENCE

As previously announced, Judge Wallace Hughston occupied most of the time Wednesday night prayer meeting at the First Methodist church. He was leader of the lay delegation of the North Texas Annual conference at the recent Quadrennial conference held at Jackson ,Mississippi.

He was an active participant in the conference which is the only lawmaking body of the Southern Methodist church and meets only once every four years.

Some of the things the conference accomplished was lowering the annual budget, progress in unification of the Northern and Southern branches of the church, denial of active ministry to the women, denunciation of war, gambling and liquor, abolishment of two of the General Boards which were combined in the interest of economy with other Boards and limiting the tenure for presiding elders to four years.

Three of the bishops retired on account of reaching the age limit of seventy-two leaving eleven active bishops.

Bishop James Cannon Jr. was winner against an effort to place him on the retired list.

Judge Hughston is a pleasing speaker and was heard by a larger than average attendance at prayer meeting which service was in charge of the pastor, Dr. Minor Bounds.

Rev. Mr. Hightower of Fort Worth, a superannuate Methodist minister of the Central Texas conference, was in the audience. He is the father of Mrs. T. C. Martin of this city whom he and his wife are visiting.

Felie Quesenberry and wife of Plainview, Texas, are visiting their old home in the Lebanon community. They own 600 acres of fine farm land, located between the towns of Hale Center and Plainview, in West Texas. He reports that his wheat looks as pretty and promising as any crop that he has ever grown. He is a son of the late Claude Quesenberry and wife, honored Lebanon citizens, and a nephew of R. M. Quesenberry of McKinney.

Guests of Mr. and Mrs. R. G. Melton, who reside just southwest of town, Sunday, were her parents, Mr. and Mrs. D. W. Bagwill, of this city; Mr. and Mrs. Harold Reinhardt of Fort Worth; Editor and Mrs. A. A. Bagwill of Plano and daughter, Miss Louise, a student in C. I. A., Denton, and Mr. and Mrs. Don W. Bagwill of McKinney.

John Green of McKinney, junior in Baylor university, Waco, has been elected vice-president of the Brooks Hall student council for next year. This council is made up of leading students of the ladies dormitory and gives itself to the promotion of dormitory interests.

FUNERAL OF MRS. JOHN JONHSON IS LARGELY ATTENDED

BABY, PARTIALLY MUTILATED FOUND IN FINCH PARK

The partially mutilated body of an infant boy baby was discovered about 6 o'clock last (Saturday) morning in Finch park by A. J. Smith, keeper of that city play ground, located adjacent to the Southern part of the city limits.

Mr. Smith immediately notified officials and County Attorney W. C. Dowdy, County Health Physician Dr. R. L. Davis and Justice of the Peace Erwin C. Craus all repaired to the place of the finding, to view the body.

DIRECTORS OF C. OF C. HEAR HIGHWAY REPORT

President Jas. H. Merritt of the local Chamber of Commerce presided over one of the best attendeo and most interesting monthly meetings of Board of Directors, Friday afternoon, May 11, at the organization headquarters in the Pope theater building. There were twenty-three directors present for this important monthly session.

Reports were heard from W. P. Abernathy on activities of the Jaycee organization; from A. M. Scott of the membership commitee; A. H. Eubanks of the highway committee, City Supt. Jack R. Ryan, Mayor Joe E. Largent and Secretary W. Hammond Moore, the latter reporting on the recent Etex Chamber of Commerce convention held at Texarkana.

Pres Merritt named a committee to work with the two county agents, Miss Helen Dunlap and Jack McCullough, in arranging for the trip to C. I. A., in Denton Friday, May 18 when the annual short course will be held there. This committee is composed of C. C. Cooper, Artic Williams, Orlia J. Moss, Jack Warden, W. W. Taylor and Clifton Dowell. * * *

Junior Chamber Activities.

In the absence of President Leo Spillman of the Junior Chamber, W. P. Abernathy reported on the progress being made by this young mens' group of civic workers. Among other things, he told of the work of that organization, in conjunction with city officials and the Retail Merchants association, in attempting a solution of the city's traffic problem. On East Louisiana street, he said, is the first attempt to solve the problem, which seems to be working out satisfactorily. Cars, on that street, are being parked at right angles on the south side, which has apparently eliminated the double-parking evil. Further new parking improvements will be put into effect soon.

The Jaycees, Mr. Abernathy told the Senior directors, have volunteered their services to Pres. A. H. Eubanks and the Collin County Fair association. He related progress of the expanison movement within the state organization. In regard to the Go-to-church movement, that project had proved successful for the second successive year here, with nearly all churches reporting increased attendances. The project was also adopted as a state-wide movement observed by twenty-one cities in the state, boasting a Jaycee organization, Sunday, April 22. The Jaycees are also planning a picnic or barbecue this month ,celebrating their second anniversary.

* * *

Chamber Membership Popular.

A most optimistic report was made by A. M. Scott, chairman of the membership drive, concerning the recent canvass of the city. He commended the spirit of McKinney's business people in thus wishing to shoulder their part of the burdens in their city's civic organization.

Federalizing Highway No. 24.

A. H. Eubanks, chairman of the highway committee and recently named president of the Highway 24 association, described the recent meeting of that good roads organization, held at Graham. There were county judges, commissioners, city officials and other highway enthusiasts present at that meeting in large numbers, and great interest was shown by all attending in securing Federalization of Highway 24, which runs through McKinney, east and west.

* * *

Work on Highway No. 6.

Mr. Eubanks briefly related progress of highway improvement work on State Highway 6, which is also known as Federal Highway No. 75 from McKinney to the Dallas county line. Work is already in progress at at least seven or eight places on that stretch of road. It will be an important and beautiful thoroughfare when completed. A work order has also been released to hardtop that section of No. 24 from Fairview, south of town, to the Milt Turner corner. On behalf of the fair association, which he heads, he thanked the the Jaycees for their assistance in working for the betterment and improvement of our big free county fair.

* * *

City Schools Progress.

Supt. Jack R. Ryan of McKinney Public schools told the directors of the recent improvements made on the grounds of the J. H. Hill (Central) ward school, consisting in levelling the grounds and filling in low spots with from 4 to 8 inches of dirt. Also partly concrete curbing it. He called attention to Baccalaureate exercises Sunday morning and to Commencement Friday night, May 18, of the McKinney High School Senior class consisting of more than sixty graduates. Dr. T. O. Walton, president of Texas A. & M. college, will be the Commencement speaker, while Dr. C. S. Weaver will deliver the Baccalaureate sermon at the First Christian church.

Supt. Ryan also called attention to the fine spirit of cooperation between our schools and patrons, mentioning in particular the open house held a few weeks ago in the L. A. Scott Junior High school, when parents, patrons and friends were invited to attend and see the work of the pupils as well as to enjoy a delightful program by the students. Neglected Household Duties

Usually when death occurs in a home; household duties have necessarily been neglected. This is the purpose of the Harris Funeral Home. They have provided nice parlors of home-like plans and keep them ready to accommodate patrons so as to relieve people of all worry and confusion of putting a house in order for the funeral, which is a great convenience of aid to bereaved families, and their friends.

Those having used these parlors compliment the service very highly.

There are a large number of good reasons why you should patronize the Harris Funeral Home and exercise your influence for them. Other reasons will be published.

Beautiful Life Ended In Passing Mrs. M. P. Graves

(Contributed)

On Saturday evening, May 5, just as the shades of evening began to gather over this earth and the stars "the beautiful lamplights of Heaven," began to cast their illuminations over the McKinney City hospital, a beautiful life ended; casting a deep tragical sorrow over loved ones who had watched so anxiously by her bedside. Mrs. M. P. Graves, nee Nonnors Rogers, breathed her last. God cultivates some flowers, rare and sweet, in this world and when they are in full blossom blessing the lives of others with the pure, sweet fragrance we cannot understand why the transplanting to the "Beautiful Garden of God" should be. She was one of the loveliest, most wonderful Mothers; possessed of all those Christian graces—kindness, sweetness and purity of life and purpose so enriching the lives with whom she came in contact by her spiritual life.

In the home with her devoted husband and three children she wielded pure Christian influence which was a great inspiration to their lives and builded a monument like "Mary of Old," who broke the Alabaster box of precious ointment and we can realize how much precious perfume came from her devotion as she lived daily a life unparalleled with tender care for those she loved so dearly. If Heaven eve held a priceless jewel it has gained one in this sweet Christian mother.

Her funeral was held at the Presbyterian church at Melissa, Texas, with an immense crowd of sorrowing friends present. Her funeral was preached by her pastor from Howe, Texas, assisted by Dr. Brimer of Sherman, former president of Trinity university, where she graduated. Several special songs were sung by friends. The choir was under the direction of W. W. Mengum. Quite a number of relatives and friends from Dallas, Sherman, McKinney, Plano, Prosper, Celina and many other places, for she was universally loved by every one who knew her.

At her bedside, when death came to her, were her brothers, as follows: Messrs. Zue Rogers of Lampasas, oWodville, of San Antonio; Hubert of Dallas; Frank of Austin; Claude of Frisco, and their wives and children; also her husband and children, Mr. and Mrs. J. H. Rogers and Mr. and Mrs. J. M. and Mr. and Mrs. Douglas Graves.

Her remains were laid to rest out at the Melissa cemetery. Her grave was covered with the most beautiful flowers of every color and hue, sweet tokens of love and tenderness for this sweet Christian mother and loved one.

Mr. and Mrs. T. E. Culwell and daughter, Betty Jean; L. E. Culwell, father of T. E. Culwell; Carl Lepeard and wife and daughter, Carlene, spent Sunday with Mr. and Mrs. G. W. Lepeard in this city.

Former Collin County Resident Buried in Fitzhugh Cemetery

On Saturday afternoon, May 5, at 1 o'clock, J. F. Brock was suddenly called away from this earthly life. He was visiting in the home of his daughter, Mrs. C. E. Brewer of Winnsboro when the sad accident occurred in which he was the victim.

Claud Brewer, son-in-law of the deceased, was building a gate near the home. His father, J. B. Brewer, who is making his home with his son, Claud, and Mr. Brock had taken an automatic shot gun to kill some hawks that had been catching little chickens. Upon returning they sat down under the tree where C. E. Brewer was working, leaving the loaded gun against the trunk of the tree. Mrs. Brewer joined them and while engaged in conversation with her father, two small grandchildren were seen approaching them. The elder, remarked, "I will move that gun before one of the children get it." He reached for the gun, which was not on safety and exploded in his hands, the full charge striking Mr. Brock in the left breast. Death was instantaneous without a spoken word only a groan. His daughter, son-in-law and friends all sprang to his assistance but death came while his head rested in his daughter's arms. When the sad news reached his wife and sons of Dallas they left immediately for Winnsboro. Frank Weens, and Justice of the Peace of Winnsboro held the inquest pronouncing death by accidental gun shot.

J. F. Brock was born in Kentucky Oct. 25, 1865, being at the time of his death, 68 years 7 months and 10 days of age. He came to Texas when a boy with his parents, Mr. and Mrs. Allen Brock Sr. who settled in the Betheny community. He was married to Miss Harriett Fitzhugh in July 1890. To this union were born four children as follows: D. Roy Brock of Dallas, Willie F. Brock also of Dallas; Mrs. C. E. Brewer of Winnsboro and Mrs. Estes Jenkins of Gladewater.

Mr. and Mrs. Brock and family lived in McKinney a number of years, he being connected with the A. J. Commons Produce company which transferred him to Dallas some twenty-one years ago. He was converted in young manhood, uniting with the Christian church. Rev. A. H. Snider, a life long friend of the deceased, and who was baptized at the same time Mr. Brock received his baptism, conducted the funeral services, assisted by Eld. R. C. Horn, another good friend and neighbor.

Mr. Brock was for a time Sunday school superintendent at Forrest Grove where his body was laid to rest on the family lot under an embankment of beautiful flowers which bespoke the love and esteem in which he is held by many friends. Besides the bereaved wife and children, the following brothers and sisters survive: Allen Brock, Tom Brock, Mrs. L. F. Nolen, all of Buffalo Springs, Texas; Milton Brock Henrietta, Texas; Mrs. Chas. Straley and Mrs. Mollie Brown Everett of Foss, Okla. Eight grandchildren survive. Nephews of the deceased were active pallbearers. A number of friends from Dallas, Winnsboro, McKinney and other points attended the obsequies.
